Activity is the only
road to knowledge.
--George Bernard Shaw

August 8, 1980

Vol. 9, No. 44

MAKING A FINAL INSPECTION . . . of the prepared copy for the 1980-81 Governors State University Catalog, Bill Kryspin, Special Assistant to the Provost, follows the seemingly endless pages along the ICC corridors. Kryspin, Associate Director of Publications Joan Lewis, Graphic Arts Supervisor Linda Willard and the ICC staff devoted almost the entire month of July to getting the Catalog to that point. Now being printed, the Catalog is expected to be ready for distribution on August 26th.

REPORT ON THE PRESIDENT . . . Faze I readers have probably, and with good reason, grown somewhat skeptical about this report. After all, we have reported that President Goodman-Malamuth would be returning home "next week" for each of the last three weeks! Nevertheless, we ask you to believe today's report that the President expects to return home this weekend. He remains in good spirits and is anxious to return to his work at GSU.

DEAN OF CAS APPOINTED . . . Provost Curtis McCray has announced the appointment of Dr. Reino William Hakala as the Dean of GSU's College of Arts and Sciences. In making the announcement, the Provost commented, "Dr. Hakala's selection comes after a most arduous and thorough search by the Search Committee and the Division Chairmen. I believe that we have found an excellent Dean, who brings the stature of scholarship and rich administrative experience to the College. Please join me in welcoming Dr. Hakala to the University." The appointment is effective August 18, 1980.

After notification of his appointment, Dr. Hakala stated, "I am excited and elated at the prospect of working at GSU with the faculty and staff of the College of Arts and Sciences. It's an interesting place and I've had my eye on GSU for some time and have watched its progress with interest. I am very happy to be able to participate in the University's pursuit of its goals." He is coming to GSU after seven years as Professor of Physics, Mathematics and Chemistry at Lake Superior State College in Sault Sainte Marie, Michigan.

Dr. Hakala has 12 years of administrative experience as dean, assistant to the vice president for academic affairs, department chairperson, section chairperson, and faculty senate president. He has 27 years of full-time teaching experience on the graduate and undergraduate levels. Dr. Hakala received his Ph.D. in physical and inorganic chemistry from Syracuse University in 1965. He was awarded an M.A. in organic chemistry from (continued on page 2)

INSIDE...a reprint of GSU's MBA ad, appearing in Newsweek's Aug. 4th regional edition.

DEAN OF CAS APPOINTED (continued) . . . Columbia University and an A.B. in chemistry from Columbia College. A recipient of numerous honors and awards, he is also a Danforth Associate for 1979-85. He has authored numerous publications and participated in advanced study institutes in America and abroad.

"FLYING SAUCER" TAKES A SHOWER . . . It was hard to miss the excitement at the Hantack House last Monday--two cranes, a cement pump, a cement truck, and ten student assistants working with Jene Highstein. It was not until 9 p.m. that night that the "Saucer" had received its complete coating of concrete. Currently, it is taking a week-long "shower," an integral part of the drying process for the ferrous cement used on the sculpture. Tentative plans call for a September 7th siting and dedication. Bill Dodd, UR/Foundation, had an interesting, and perhaps pregnant, experience last Monday. At about 8:30 p.m., a man and woman in a VW Beetle drove up near the sculpture. The man rolled down his window and asked, "What is it? What's going on?" Dodd responded, "It's a Jene Highstein sculpture named the 'Flying Saucer.'" The man got furious and yelled, "That's the trouble with this place--you can never get a straight answer to anything," rolled up his window in anger and tore away from the site.

CONGRATULATIONS . . . to Robert Kelley (BPA) who was selected by acclamation to serve as the three-year alternate to the Council of Faculties.

GSUings . . . ROBERT JUDD (BPA) speaking on "Microcomputer Use in Management Decision" for the National Conference of Servicemaster Industries, August 11-12, for 300 franchised licensees . . . GAIL PHILLIPS (CAS) having her work, "People Surrounded by Cars," selected for the 1980 Phototional Exhibition in Erie, Pennsylvania.

THREE POPULAR MUSICAL ATTRACTIONS . . . will join forces in an Outdoor Folkfest to end GSU's summer season of entertainment, Friday, August 15, at 8 p.m. Buck's Stove and Range Company, a Bluegrass/Newgrass quartet; Amy Levin, guitarist/vocalist; and Jump'n the Saddle Band, a six-member country-western group, will send out their sounds from the Outdoor Amphitheatre on the north side of the University building. The Outdoor Folkfest is sponsored by the Office of Student Activities. For ticket information, call x2464.

AUGUST VETERANS OF INNOVATION . . .
